

“Well, you know, when you go into a restaurant, one of the scariest things is the wine list, so whenever I'm really feeling intimidated, I'll just pick a wine type, like a Chianti or Brunello or a Burgundy, and I'll pick a year that's missing and ask for that one.”

W E L C O M E

Welcome to the drink menu at Inferno Chophouse & Bar. Why do we have this greeting here of all places ? Is it because we did a magazine style layout for our drink menu and we needed one more page to fill it up? Maybe.

It is really to re-affirm to you, our valued customer, that we care and we take pride in what we do. You will see, we have come up with some unique cocktails and some spins on some classics. If you desire a drink that is not on our menu, our staff will be more than happy to accommodate you (provided we have the ingredients, of course).

There is also a world of cocktails, martinis and shooters out there and we obviously can not list them all. Our creative staff have a passion for these and tend to have a couple of their own special drinks that they are encouraged to produce for those customers seeking something new.

Your feedback is always appreciated and encouraged.

Cheers and be safe!

SIGNATURE DOUBLE COCKTAILS \$8.50

INFERNO CAESAR

There are those that argue about the perfect martini and we feel that it is all a matter of personal taste...vermouth? No vermouth? BUT "off the record", if you were to ask.....the perfect martini is made by "filling a glass with gin then waving it in the general direction of Italy."

SHOTS & SHOOTERS \$4.75

1690A.D.

William of Orange passed a law that lifted taxes on distilled spirits and encouraged development and expansion of this industry. Stills sprang eternal. Newly discovered gin became the drink of choice for the lower and middle classes, bringing with it the demand for appropriate glassware. Instead of the larger bowl-shaped wine goblets used by the upper classes, much smaller glasses were needed to accommodate the more potent distilled spirits. Dram glasses used for “chugging” several toasts of rum, brandy, whiskey or gin, were cheaply made. Because they broke so easily, much sturdier firing glasses we created. They had to be strong enough to withstand the abuse of being pounded on tavern tables giving off sounds of musket fire, hence the name “firing glasses” and now “shots”.
